PA

PATRICK ABERNATHY

WEB DEVELOPER | FULL STACK

ABOUT ME

I love to learn. As technology continues to grow and change, I find it exciting to try and keep up. If I stick to one subject too long, I run the risk of being left behind. So I try to continuously build my skills and improve so I can continue to solve whatever problems come at me creatively and efficiently.

SKILLS

.Net Restful APIS
.Net Core
.Net Framework
SQL Stored Procedures
Sitecore 9.2 Certified
Java
Javascript
Knockout.JS
Angular.JS
HTML

EXPERIENCE

WEB/ SITECORE CMS DEVELOPER • TERMINIX • 04/2020 – CURRENT
- Sitecore CMS developer.
- .Net Integration with Sitecore components.
- Helped facilitate moving from Sitecore 9.0 to 9.2.
- Developed calendar rules for front end website to use for selection criteria.
- Developed CMS product cards and templates for e-commerce selection.

BACK END DEVELOPER • TERMINIX • 10/2016 – 04/2020
- Wrote back end restful APIs for the mobile app team to call.
- This included writing SQL Stored procedures that would read and write data to the SQL database and return it to the front end application.
- Instrumental in removing a third party dependency that caused catastrophic failures when the third party had a ransomware attack and lost all data.
- Worked with a large team of off shore developers and coordinated releases with other teams.

WEB DEVELOPER • SERVICEMASTER • 03/2015 – 10/2016
- Worked with business to business web site and developed enhancements.
- Part of a small team that implemented a complete redesign of the website and improved stability and site speed.
- Helped move from SOAP calls to restful API calls.
